

Optimize Learning with iPad using iPad Workflows

People have different "Magic Apps"

- Everyone has different preference for working style, learning style, etc..
- Be curious about new apps, but use what works for you.
- You can chain apps together to create powerful workflows.
- **You might have other app/workflows that I would love to know about!**

Make sure to get these Freebies for OSU students!

- (Buckeye)Box: unlimited storage.
- Office 365/BuckeyeMail: 1TB storage (that's about 20 Blu-Ray movies!), install on 5 PCs/Macs, 5 tablets, and 5 smartphones.

How might a day of learning look like ...

- Top Hat polling
- Keep yourself up-to-date with your courses
- Take notes in class
 - ... annotate PDF (lecture notes)
 - ... annotate/edit Office documents
 - ... hand-write on blank, lined "paper"
 - ... typed, electronic notes

How might a day of learning look like ... (cont.)

- Take and organize research information
- Submit an assignment to Carmen
- Checking your grades, bus routes, etc.

Apps that we will show you today - feel free to follow along!

iOS (specifically share sheet)

- * Top Hat
- * Canvas
- * Box
- * iAnnotate
- * Word
- * GoodNotes
- * OneNote
- * Ohio State

Don't feel like you have to remember everything! We just want to show you what's possible today!

Top Hat Polling

Tool: Top Hat

- Your instructors may use Top Hat to ask you questions during class to make sure that you understand
- Practice Time!
 - If you did not complete the Tech Setup quiz in Jump Start, join the Top Hat course using this code: 566704.
 - Please take the pre-survey now in Top Hat!

Keep yourself up-to-date with your courses

Tool: Canvas *(it's what the system is called)*

- Access courses.
- Check upcoming events, due dates, etc..
- Check notifications and messages.
- Access course materials and activities.

Keep yourself up-to-date with your courses

Tool: Canvas (*it's what the system is called*)

- Tweak your notification settings.
 - By default, emails are sent to your @osu, which then may be forwarded on to BuckeyeMail or other email service that you have chosen).
 - At the very least, I would turn on Announcement and Conversation Message.
 - Use web version for finer control.

Annotate PDF files (file comes from Canvas app)

Tools: Canvas --> Box

- You can annotate PDFs directly in the Canvas app.
- Then, use the share sheet to save to Box (you'd need to set up your Box app first).

Annotate PDF files (file comes from other apps)

Tools: *App* --> *Box* --> *iAnnotate*

- Use the share sheet to save to Box.
- Then, open the document in iAnnotate to, well, annotation. Changes are saved and uploaded upon closing the document (or, hold the "x" icon).

Annotate/edit Office documents

Tools: *App* --> Box --> Office (Word / Excel / PowerPoint / etc.)

- Use the share sheet to save to Box.
- Open document in Box.
- Then, you can open document in Word; changes are saved back to Box (we recommend that you set up your Office apps first).

Submit an file upload assignment to Carmen

Tools: (Canvas -->) *App* --> Canvas

- Remember: you can annotate PDF directly in the Canvas app.
- From the app with which you are working on/storing your submission:
 - Use the share sheet to "Copy to Canvas."
 - Open the assignment in Canvas.
 - Under Submission > Turn In, find your submission.
 - Lastly, remember to submit!

Before we move on ... some tips for Carmen assignments and quizzes

We know what you did or didn't do ... hint hint, nudge nudge

- Double-check if you actually submitted your an assignment, quiz, or discussion comment!
 - You can also confirm this on the Grades page.
- You can resume an unsubmitted quiz attempt as as long as time isn't up. Carmen will ask you to confirm if you try to submit with unanswered questions.
- Unless you know what you're doing, don't completely turn off emails from Carmen. You might miss something important - and that would be on you 🦴.

Take handwritten notes

Tools: GoodNotes (--> Box)

- This is my current go-to because:
 - It let me keep my notes in "notebooks."
 - I can use/import templates, including Cornell Notes (stay tuned for workshop info).
 - I can search my handwriting.

Bonus: If you would like to keep everything in GoodNotes, you can also import your PDF into a GoodNotes notebook.

Take electronic notes

Tools: OneNote --> Office 365/BuckeyeMail

- This is a great, free, organized solution.
- I don't personally use it for handwritten notes because writing with the Apple Pencil feels off.
- You can insert media, files, links, etc:
 - ... in the app (the camera tool is also a document scanner).
 - ... using the share sheet.

Take electronic notes (cont.)

- OneNote is a great tool for, for example, online research .
- If you are doing a tradition paper research, you might look into something like Papership, Mendeley, EndNote, etc..

Check your grades, bus routes etc.

Tool: Ohio State app

- **Campus** tab: points of interest, services of interest, parking garage availability, etc..
- **Log In/My OSU** tab: class schedule, manage BuckID, see grades, configure wifi/BuckeyeMail/notifications, etc..
- **Buses** tab: routes and real-time bus location updates.

Questions?

Post-Survey in Top Hat

Next Stop ...

Go visit **Wilce Student Health Center's** table at the **Health Fair** to sign up for BuckMD, which is a portal for:

- Scheduling and managing appointments.
- View and print your personal health information.
- Send/receive secure messages to/from Student Health Services.
- ... and more!
